

X400 PISTON

The Caliber® X400 Ultra High Temperature Piston is a urethane bonded piston designed to withstand pressures up to 7500 psi and extreme temperatures up to 300°F. It will perform equally well in water-based mud, oil-based mud, and brine water, and is consistently utilized in all stages of the drilling process. With the versatility to withstand extreme applications and all types of fluid, the Caliber X400 piston provides a robust multi-purpose solution for all drilling environments.

BENEFITS

- ◆ Maximum flexibility – designed for water, brine and oil-based muds
- ◆ Extreme service for temperatures up to 300°F
- ◆ Best for high pressures up to 7500 psi
- ◆ Bonded urethane design for longer life
- ◆ Excellent chemical resistance
- ◆ Flex lip design
- ◆ Forged steel hub
